यश मिळवणे जितके महत्त्वाचे असते, त्यापेक्षा मिळवलेले यश टिकवणे अधिक महत्त्वाचे असते.
स्वकष्टाने निर्माण केलेले स्थान टिकवण्यासाठी आपल्याला रोज नवे नवे शिकावे लागते. हे शिकत असताना
चुका होणे काहीच गैर नाही; पण एकदा केलेली चूक पुन्हा पुन्हा करणे मात्र आपल्या प्रगतीतील धोंड आहे.
तुमची खरी स्पर्धा इतरांशी नसते. ती स्वत:शीच असते. दुर्दैवाने याचाच आपल्याला विसर पडतो. मग
आपले सगळे आयुष्य आपण इतरांशी स्पर्धा करण्यात, त्यांच्याशी तुलना करण्यात घालवतो.
इतरांशी तुलना जरूर करावी, पण ती स्वतःची क्षमता वाढवण्यासाठी, दुस-याला कमी लेखण्यासाठी
नव्हे. काल तुम्ही जे केले त्यापेक्षा तुम्ही निश्चित काही वेगळे, चांगले, उत्तम करू शकता. मग यश म्हणजे
नेमके काय ? तर जसा विचार तसा दृष्टिकोण.
1.आपली स्पर्धा कोणाबरोबर असते? (शत्रूबरोबर/स्वत:बरोबर/इतरांबरोबर/ शिक्ष्कांबरोबर)
2.आपले स्थान टिकवण्यासाठी काय करणे आवश्यक आहे? (रोज नवे नवे शिकावे / भरपूर कष्ट करावे /
दुसऱ्याला कमी देखावे / इतरांशी तुलना करू नय)
3.आपल्या प्रगतीतील अडथळा कोणता? (एकदा केलेली चूक पुन्हा पुन्हा करणे /नवीन शिकणे / इतरांशी
स्पर्धा करणे / अपयश घेणे)
प्रश्न 5. जनाई पाठातील आलेल्या गोष्टींच्या वर्णनाच्या जोड्या जुळवा. 2
(१) शेंगांचे वावर (अ) काळ्या ठिपक्यांची चार वाव तुळी
(२) शेंगांना आलेली पिवळी फुले (आ) डर्रकन दोन ढेकर आले.
(३) साप (इ) हिरव्या-पिवळ्या रेशमी धाग्यांचा रुमाल

Cycling offers a range of economic and health benefits beginning from zero carbon emission to reducing obesity. More and more people today have begun to rediscover cycling as a conscious and sensible lifestyle choice. (Para 1)

Cycling can burn a bar of a chocolate in an hour. A quick 15-minute ride every day to workplace can stimulate circulation and relieve stress, burning 6 kg of fat in a year. To fast-track fitness, cycling up an incline is a fabulous way. One must also remember that riding a bicycle is a symbol of simple living—a positive attitude towards a more fulfilling life. (Para 2)

Cycling can be fun too. The experience of cycling through the countryside can be exhilarating. Imagine how rejuvenated you will feel cycling through mustard fields. (Para 3)

On the environment, cycling is less stressful. It is also a great way to avoid traffic. One is less threatened by traffic congestion and 'road rage'. Bicycle commuters are a happier lot. They get less sick, therefore, are more productive workers. To squeeze exercise into an already busy day, cycle to workplace. An average person can thus burn 300 to 400 calories per day. Stronger heart and lungs, increased muscle mass and a less stressed constitution are what one gets in the bargain. Wait, there's more. It keeps one young as it can take 10 years off one's actual age. (Para 4)

The story goes that some time ago, a man punished his 3 year old daughter for wasting a roll of gold wrapping paper. Money was tight and he became infuriated when the child tried to decorate a box to put under the Christmas tree. Nevertheless, the little girl brought the gift to her father the next morning and said, "This is for you, Daddy." (Para 1)

The man was embarrassed by his earlier over reaction, but his anger flared again when he found out the box was empty. He yelled at her, stating, "Don't you know, when you give someone a present, there is supposed to be something inside?" The little girl looked up at him with tears in her eyes and cried, "Oh, Daddy, it's not empty at all. I blew kisses into the box. They're all for you, Daddy." (Para 2)

The father was crushed. He put his arms around his little girl and begged for her forgiveness. Only a short time later, an accident took the life of the child. It is also told that her father kept that gold box by his bed for many years and whenever he was discouraged, he would take out an imaginary kiss and remember the love of the child who had put it there. (Para 3)

In a similar way, each one of us, has been given a gold container filled with unconditional love and kisses from our children, family, friends and God. There is simply no other possession, anyone could hold, more precious than this. (Para 4)
