A Report on observance of 'Swachhata Pakhawada'. 2021-2022

Atomic Energy Central School 2 observed Swachhata Pakhawada from 16th to 28th February, 2022. Cleanliness Drive under this programme sparked interest among the students to keep their classroom and surroundings neat and clean. The key objective of this programme was to create awareness among the students regarding cleanliness and its benefits. Under this programme, students from 1st to 10th participated in various events organized by the school.

The programme took off with administering 'Swachhata Shapath' by the staff along with the Principal, Vice-Principal, Head Mistress, office staff and security staff. The following day, Students took the pledge in their respective classrooms, keeping the COVID protocols in view. Principal, Shri. B. Venkanna addressed the students and accentuated the significance of cleanliness in the society as well as in the personal life of everyone. Vice-Principal, Shri Rajveer Tanwar also focused on making the students aware about one's role in ensuring cleanliness in their surroundings.

Class 6 students penned their ideas and thoughts on 'Swachhata' in the Slogan Writing Competition. Class 7 students enlivened their colourful imagination on the aforementioned theme of 'Swachhata' in the Painting Competition. The students eloquently expressed themselves in words and colours.

Class 8 students came forward to verbalize their conception on 'Swachhata during Pandemic' in the Elocution Competition. It was commendable to see them putting themselves forth on the platform with such accuracy.

Students of Classes 6th - 8th also participated in the Elocution Competition on 'Innovative Solutions to Environmental issues' and exhibited their imaginative ideas. These students are the building blocks to our neat and clean India.

Class 9 students meticulously prepared a PowerPoint Presentation on the activities of common public that render the environment unhygienic and how to resolve those issues. Class 10 students prepared a PPT on 'Swachhata and Science'.

Students thus, indulged in a spectrum of activities ensuring cleanliness. A healthy competition was observed and some of them emerged victorious by bagging the top three positions. All the students and staff members were also involved in the cleaning of school premises.

Various lectures were organized by Dr. Stylemon Pillai (Department of Physical Education) which enlightened and educated the students on various tenets of Swachhata. Dr. S. T. Mehetre spoke on 'BARC Technology for processing biodegradable waste'. Dr. Poulomi Mukherjee enlightened us on 'Bio-Composting of garden and domestic waste using BARC technology'. Dr. Dhanya Dharmapalan, a National Covid-19 Task force member of IAP, spoke to us on 'Healthier and Fitter India - Building a disease free nation'. The talks were highly informative and all of us were certainly benefited out of it.

A Street Play too was performed near the gate of AECS 2, and was widely appreciated.

The programme culminated with the announcement of the results of various competitions.
